

SPOCK TRACK LED GI

Spock fait partie d'une population extraterrestre chez Modular, reconnaissable à son disque lumineux à LED ultramince, puissant. Spock cache tous ses mécanismes ingénieux dans un boîtier élégant. Ici, le design renforce la fonctionnalité. Un système d'inclinaison unique rend ce disque lumineux très orientable. Soyez créatif avec Spock en le plaçant sur une ligne droite ou en le disposant dans un arrangement plus fantaisiste. Spock se décline en différents angles de faisceau et en différentes températures de couleur. La version Spock sur rail est adaptée à un usage dans un environnement de vente au détail. Conçu par Couvreur & Devos.
