

MARBUL RECESSED 115 1X LED GE

The iconic Marbul portfolio is specifically designed with the renovation market in mind, suiting any space and integrating into existing infrastructure with ease. Marbul recessed reveals nothing but a thin trim of 5mm and 1 or 2 spheres that peek out gently from the ceiling. Flexible installation accessories such as the conbox and gypkit enable installation in concrete ceilings. A re-engineered design invites more warmth, with interchangeable magnetic reflectors in aluminium, champagne or gold colours. Warm dim technology lets you play further with light intensity and colour temperature. Test Marbul's remarkable adjustability with a simple twist of the lamp units –360° rotation and approx 45° inclination– and create your expression.
